Die Cut Corners

PolyTrac Bronze Labels are ideal for tracking assets and identifying property in mild environments that need something more durable than a paper label.

Printed on .0023" thick white polypropylene, these labels can outperform less robust labels by combining a durable base material that is more water resistant along with a UV topcoat that helps improve abrasion and wear resistance.

Our available four-color processing allows you to promote your company with a label that sports your name or logo in any color palette combination and our digital printing process ensures even the most detailed logo will look crisp and clean.

With customizable text, numbering and barcode options you will be able to verify and inventory your items easily using whatever asset tracking method works best for your organization.

PolyTrac Bronze Labels a great combination of form and features to meet your moderate environment asset tracking needs.

Key Product Features

- Digital printing process ensures bar code readability as well as crisp, clean company logos

- .0023" thick white polypropylene with UV topcoat provides durability and label longevity

- .0008" thick pressure-sensitive adhesive bonds well to a wide variety of surfaces

- Custom spot colors and four-color processing available at no additional charge

PolyTrac Bronze Barcode Labels Specifications

Material: .002" thick white polyester; with .001" thick clear polyester overlaminate.

Serialization: Bar code and human-readable equivalent is digitally printed – providing excellent clarity and easy scanning. Code 39 is the standard symbology with a range of 2.7 to 9.4 CPI (characters per inch).

Optional linear and 2D symbologies available.

Label Copy: The label copy may include block type, stylized type, logos or other designs.

Colors: Standard colors include black, red, yellow, green or blue. Custom spot colors are also available at no additional charge. Due to contrast needed for the bar code scanner, all bar codes are black.

Standard Sizes:
- 1 ¼" x ½"
- 1 ½" x ¾"
- 1 ¾" x ½"
- 2" x ¾"
- 2" x 1"

Standard Adhesive: .0008" MC20 Acrylic Adhesive

Packaging: Shipped on convenient rolls with scrap matrix removed for ease of removal. Cleaning solution is provided to assist in applying to a clean surface. Cartons are clearly marked to indicate serial numbers of labels.

Shipment: 6 work days upon receipt of order and proof approval (if needed).

To Order: Order online or Call 1-866-916-5600 and ask for customer service.
