

PolyTrac Economy Labels

The **PolyTrac Economy Label** can be used to track assets and identify property in mild environments.

An inexpensive alternative for applications where the label won't be subjected to weather elements, abrasion or chemicals, these labels are a great solution for assets with a short life-span and limited usage.

PolyTrac Economy labels are made from .0032" thick premium semi-gloss paper and a .0006" thick pressure-sensitive adhesive that will provide durable and reliable attachment to your asset.

The paper label is thermal transfer print receptive for printing on-site at your convenience.

Our full color digital printing ensures that your logos, human readable text are the exact color and design you want. The high resolution barcode allows for easy scanning and tracking of inventory and assets.

Key Product Features

- .0032" thick semi-gloss paper
- .0006" thick standard pressure-sensitive adhesive bonds well to a wide variety of surfaces
- Full color printing to make logos and text look vibrant and crisp
